The concept

izzy – A bed is just a bed. This may be true for some beds. But not for izzy, an innovative bed system that combines timeless design with the option of integrating your preferred base system. You get to choose your own design: pick a bedside height and material thickness, with or without storage compartment at the foot of the bed. How about background lighting? Cable management? Detachable padding on the headboard? Would you like your bed floating or standing, on feet or a pedestal? An attachable table? izzy offers you all the choices in the world.

Floating bed

Bed with visible feet

Bed with pedestal

Bedside thickness 1.3 cm

Bedside thickness 2.2 cm

Bedside height 15 cm

Bedside height 20 cm

Bedside height 25 cm

Bedside height 30 cm

Bed types

izzy

The izzy system bed has a self-supporting, highly solid chassis that is compatible with all commercially available inset base systems:

- From low base systems with a slat frame and a thin mattress (e.g. 13 cm) to tall base systems with a box spring frame insert and a 30 cm box spring mattress with topper.
- From fixed frame insets to manual and motorised adjustment systems.

Four different bedside heights make it possible – 15, 20, 25 and 30 cm – and three different floor distance levels – 10 cm (floating bed), 15 cm (floating bed, bed with feet, bed with pedestal) and 20 cm (floating bed with feet).

You can choose from three different bed and headboard types to create your own, customised design.

Floating beds

The most popular interlücke beds. Their invisible feet give these beds an elegant, lightweight appearance. Bed-sides with a thickness of 1.3 cm or 2.2 cm create a puristic or less puristic effect.

Bed with pedestal

The izzy model with a circumferential pedestal ensures that nothing gets lost underneath the bed any more. A distance of 1 cm between the bedside and the pedestal guarantees good ventilation of the base system. And if you would like to use the 15-cm-high pedestal as a storage compartment, simply order the bottom panel for the bedding box and a special, lift-up slat frame.

Bed with visible feet

Choose between blade-shaped or round feet. Blade-shaped feet continue the linear shape of the bedside bevels, while round feet create a visual contrast. 36 different types of matt lacquer, feet in chrome and polished aluminium as well as bed-sides with a thickness of 1.3 or 2.2 cm make your design even more unique.

Headboards and accessories

izzy

Headboards

Three different headboards give you options to customise your design and match well with the variety of different base system (mattress plus frame inset) and body heights.

Upholstery

The upholstery for our curved and straight headboards are available with vertical or rectangular quilting. The same applies to the upholstery that turns the footboard box into a comfortable seat.

Straight headboard

Low, curved headboard

High, curved headboard

Headboard box

Available with or without atmospheric lighting, no low-hanging cables that create an eyesore or get in the way when vacuuming. With its depth of only 16 cm, the headboard box for cable management takes up surprisingly little space. Brushes on the side keep charging cables for your electronic devices in place so you can easily connect your smartphone, tablet and other gadgets.

Footboard box

The modern interpretation of an upholstered bench: the bed sides seamlessly continue to the front edge of the footboard box. At the same time, the L-shaped flap guarantees a similarly seamless frontal view, which has light, floating appearance thanks to the recessed feet. Not only is the footboard box perfect for putting on your socks and shoes while comfortably seated, in beds with 25-cm or 30-cm bed sides, it also provides additional storage space for duvets, pillows and plenty more.

Attachable table

The attachable table made of high-quality HPL is only 0.8 cm thick and subtly blends into the design of the bed. Thanks to its drop shape, it gently nestles into the bed-side and complements the convex shape of the headboard.

Individual lacquer – without control sample

Individual lacquer matt

Order your custom colour as a matt lacquer based on the Caparol Icons, NCS, RAL and Sikkens colour fans.

interlücke processes the order without sending you a control sample.

This rule only applies for matt lacquer, not neon or metallic colours.

Except for colours with a high luminosity (neon) as well as metallic- and pearl effects.

Customised lacquer – only with control sample

Customised lacquer matt

Choose your colour on the basis of the Caparol Icons, NCS, RAL and Sikkens colour fans or your own sample (minimum size DIN A4).

interlücke will produce the customised lacquer (matt) for you after approval of the control sample.

Except for colours with a high luminosity (neon) as well as metallic- and pearl effects.

The delivery date is set once the sample has been approved.

For details about individual and customised lacquer, see page 2 of the price list.

jalis

Upholstered bed

jalis - box-spring and a first-class design

jalis combines the chaise advantages of a box-spring bed with first-class interlücke design.

jalis calls to mind an oversized pillow. And not only is it extremely comfortable, it also comes with a variety of easy-to-replace fabric covers.

The bed frame, mattress and headboard in pillow form are shaped to match each other perfectly. Only 45 cm high including the mattress, jalis literally takes up less space in a bedroom and appears lighter than conventional box-spring beds.

The box-spring base consists of a Bonnell spring interior with an upholstered base system. The pocket spring mattress features a cream white double cloth outer cover. For optimum hygiene, the outer cover can be removed easily thanks to the surrounding zip and can be washed at 30°C.

Design: Jehs & Laub

algo

Lacquered bed

algo - everything is possible, except one thing: complicated

Two bed lengths, seven widths, two headboard heights and foot types see to this, while the standard lacquered rear side ensures that the bed can be placed anywhere, including freestanding, at any time, even afterwards.

Only 14.5 cm high, the bed frame provides a sense of lightness, making algo ideal even for small rooms. algo is equipped with a curved foot as standard. An angular foot is also available as an alternative.

Complemented by a side panel, it is also suitable for a teenager's room.
