cube round

the concept

cube round is a new design for sideboards, lowboards and highboards that transforms clean lines and curved shapes into iconic furniture. Gently rounded corners characterise the design language and add a soft touch to the clean lines. This creates a subtle softness without compromising on the clean elegance. Precisely crafted and thought out down to the last detail, cube round remains flexible in its design and open to different rooms and styles. Soft contours with presence

The modular system offers a choice of 6 heights, 6 widths and 2 depths. In addition, there are different feet and a frame in 2 heights, which can greatly vary the character of the furniture.

Dimension overview

	width in cm				
Heights specify heights in cm	50	60	80	100	120
19,7 = 1 module	•	•	•	•	•
29,7 cm = 1,5 module	•	•	•	•	•
39,7 cm = 2 module	•	•	•	•	•
59,7 cm = 3 module	•	•	•	•	•
79,7 cm = 4 module	•	•	•	•	•
99,5 cm = 5 module	•	•	•	•	•
119,7 cm = 6 module	•	•	•	•	

Depth 35 und 50 cm for wall standing
Depth 52 cm for room divider

1 module = 20.0 cm = 19.7 + 0.3 gap

Room divider back panel =
The configuration can be chosen as desired:

View from front

View from behind – alternative 1
configuration as front. Please order
2 x P 7944 (room divider back panel without
weights for modules with doors/flaps)
+ 4 x P 7714 (room divider back panel with
weights for modules with drawers)

View from behind – alternative 2
Please order
4 x P 7924 (room divider back panel without
weights for modules with doors/flaps)
+ 2 x P 7724 (room divider back panel with
weights for modules with drawers)

View from behind – alternative 3
Please order
2 x P 7944 (room divider back panel without
weights for modules with doors/flaps)
+ 1 x P 7744 (room divider back panel with
weights for modules with drawers)

Preconfigured modules with flap and drawer are available in the height of 3 and 4 modules.

If any functional changes are desired, then individual modules need to be ordered that will then be joined in a single body at the works.

Example: 4-module-high module:
Top: 2-module-high module with flap,
Bottom: 2-module-high module with
drawer.
Please order 2-module-high module with
flap + 2-module-high module with large
drawer.
Max. height: 10 modules = 199.7 cm

Four preconfigured modules are
available for front designs with different
drawer heights in the height of 4 modules.

Stand and frame types

Interior

Standard leg – 2.5 cm high,
dark grey, adjustable by +1.5 cm.

Round leg – 4 cm high
adds formal accents to the linear design language of the furniture.
Colours: matt lacquer, stainless steel coloured, burnished, adjustable by -0.3/+1.3 cm, under
outer sides of body and centre joints.

diagonal leg - 17 cm high
For sideboards up to 4 grid heights and for 5 grid high modules with hinged doors up to 120
cm wide. 2 grid modules up to 160 cm wide. Under the outer sides of the body and centre
joints. Diagonal feet continue the side mitre.
Colours: Matt lacquer, stainless steel colour, burnished, black powder-coated Adjustable at
the top by -0.3/+1.3 cm. Under the outer sides of the body and centre joints.

Base frame with diagonal legs – 17 cm high
The fine rectangular metal profiles go perfectly with the delicate shapes of the furniture.
Colours: matt lacquer, stainless steel coloured, burnished, black powder-coate.
Adjustable at top by -0.3/+1.3 cm. Up to width 240 cm with 2 outer legs. From 160 cm
width and 3 modules height with additional straight centre leg. Width > 240 cm always with
additional straight centre leg.

Hanging

Inner drawers behind hinged doors

Interior drawer behind drawer

Large drawer with a high frame

pillowbox

Shoe rack

Background lighting –
LED light profile with colour temperature control, on 3 sides
of the back panel. A basic or extension set is required for
the power supply. The basic set contains a remote control
for switching, to control the colour temperature and for dim-
ming. Background lighting is not possible with wall-hanging
furniture.
