A distinctive side table programme with a sculptural character has been created from stencil-like semicircles and their positive counterparts.

The three side tables, the coffee table and the console can be used multi-functionally and set sophisticated accents in the most diverse living situations: from the living room to the hallway to the bathroom. Whether in the 30 noble interlückte matt lacquer Colours, Colour Match 2025/2026 or in the lacquer colour of your choice – always matching the individual room architecture. Their extremely precise workmanship in fine 6 mm HPL – without visible fittings – emphasises the clear design language of the tables.
